

## **Business Intelligence/Data Analyst** **Greenville, SC Office**

Lima One Capital, LLC is searching for a Business Intelligence/Data Analyst with 1-3 years direct experience. The Business Intelligence/Data Analyst will be responsible for managing and supporting focused initiatives to empower business leaders with data to identify business opportunities and risks.

A generalized list of job responsibilities is below:

- Create and support ETL jobs pulling data from various source systems and loading into the data warehouse
- Develop dashboards and general data visualization using Tableau
- Conduct analysis across multiple data sources to identify key insights.
- Apply relevant analytical tools to improve overall customer segmentation, inform product and pricing decisions, and identify potential business opportunities.
- Constructing automated data profiling systems
- Collaborate with key lines of business to understand needs and identify opportunities defining analytical problem statements to build strategy recommendations.
- 

Desired skills include:

- Relational database knowledge: SQL, T-SQL
- Experience with cloud data warehouse solutions preferred
- Working understanding of dimensional data modeling
- Experience with Tableau and Alteryx or similar data visualization and analytical toolkits
- Proficiency with ETL tools and methodologies
- Understanding of mortgage origination and real estate markets preferred
- Able to communicate effectively with non-technical staff
- Experience and confidence presenting data findings to team members and business leadership

Benefits

- Medical Insurance
- Life, Short-Term Disability, Long-Term Disability
- 401k plan
- Paid vacation
